

TUBERCULOSIS IN CHURCHES APRIL 24

Approval of the movement for a national tuberculosis Sunday on April 24, recently inaugurated by the National Association for the Study and Prevention of Tuberculosis, is given in a statement by The Right Reverend Richard H. Nelson Bishop Coadjutor of Albany, New York, for the Protestant Episcopal Church, issued on March 17th.

Bishop Nelson says: "I think well of the proposal that all the churches should unite on April twenty-fourth in presenting the truth concerning tuberculosis and stimulating public interest in the campaign for its prevention and cure."

"The campaign has entered upon its second stage. Having labored with some success to point out the danger, we are now concerned with the cure, and this depends upon improvement in conditions of personal and social life. Whatever the churches may be able to do along this line, will be a double contribution to physical and spiritual betterment and I should think that all would wish to have a share in such an enterprise."

Reports from all parts of the United States indicate that the Sunday set apart will be generally observed, by the preaching of sermons on tuberculosis and by the distribution of special literature.

The National Association for the Study and Prevention of Tuberculosis declares that the campaign against tuberculosis is a warfare against ignorance, and that as soon as the people of the United States know that tuberculosis can be prevented and cured, they will demand that the needless waste of 200,000 lives annually be stopped.

NAVAL CADETS ARE UNDER DISCIPLINE

ANNAPOLIS, Md., March 25.—Annapolis is tonight in a most peculiar condition. Possibly 500 young ladies from all over the country are here to attend the midshipmen's hop at the Naval academy, but while the hop is being held, these young ladies and those of the Annapolis naval set are practically without escorts. The youths who invited them to come to Annapolis are not allowed to leave the grounds under the order issued by Superintendent Bowyer today. As a result, the young ladies, with their chaperons, were forced to go unattended to the academy gate, where there occurred a wild scramble as 800 midshipmen attempted to pick from the inflowing stream of femininity the particular girl each had invited to the dance.

For having given an officer of the department of discipline what is known as "silence" at supper formation last night, Captain J. M. Bowyer, superintendent of the academy, today issued orders suspending all general and special privileges for the whole brigade. Until further orders, no midshipman will be allowed to leave the academy for any purpose whatever. Permission to hold hops during April and May has been revoked, and the organization of the first-class club, which was in process of formation, has been indefinitely postponed.

Giving the "silence" to an unpopular officer is a practice at the academy which is almost as old as the institution itself. It consists of keeping absolute silence in the mess hall during the meal at which the officer against whom the resentment of the midshipmen has been aroused

is present, and in this instance it was directed against one who has a reputation for being a strict disciplinarian.

DOUGLAS NEWS NOTES

R. F. Darbyshire, who is connected with the Dawson Coal and Coke company, arrived in Douglas from El Paso yesterday.

Mrs. Cady and Messrs. E. A. Noble and Paine Noble are guests of the Gadaden. They are friends of Postmaster Cadwell.

W. S. Smith and C. S. Katz are civil engineers who came up from Esperanza, Mexico. They are located in the famous Yaqui river district, which is being extensively irrigated.

Mrs. O. L. Neer returned from Campas this morning. She was accompanied by her husband, who has been ill.

Mrs. C. E. Stone, en route from Mexico City to Denver, is a guest of Mrs. John Igo of this city for a few days.

Picture in Examiner. In the Los Angeles Examiner on Monday there appeared a two column picture showing the entrance of the Gadaden Hotel with the trade extension boosters from Los Angeles and several automobiles in the foreground. The picture was an excellent one and is good publicity for Douglas.

Machinery for Flour Mill. All the material necessary for building a flour mill passed through

the custom house yesterday, en route to Colonia Morales, Mexico. The old mill was destroyed by fire and the Lilywhite Brothers are constructing the new one. Twelve large wagons were necessary to transport the machinery and lumber.

Morenci is Silent.

No word was heard from Morenci as to the proposed telegraphic bowling match last night, hence there was no attempt to roll a match, although four of the Douglas five were on hand. An excellent practice game was rolled, Lohman doing especially well, with two scores of 212 and 209.

Give Fine Exhibition.

The pupils of the domestic science and manual training departments gave an exhibition of their regular work in the high school building this afternoon. It showed what an excellent training our boys and girls are securing for their work in after years, and also the competency of our teachers in these departments.

New Hat Brim.

The novelty which well known milliners have introduced in headgear is the hat with the fly-away brim. It is the left side of the brim that flares to the heavens above a moderate size crown. These shapes are in straw, faced with velvet, and worn well down over the head. The only trimming is a bow of velvet or a many looped wired bow of maline. One of the best of these hats is of white straw bound with black velvet with black maline bow in front. The hat pins are of jet.

GET WISE.

Join the Order of Owls. Charter application open for those desiring to join at Medigovich Hall Saturday night. Charter members \$5.00.
